REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-22 recite a ferroelectric memory comprising a memory cell including a ferroelectric capacitor having a ferroelectric film capable of taking different electric capacitances in an initial state and first and second electrode formed to hold the ferroelectric film therebetween; a circuit applying a read voltage to the first electrode; and a detector capable of detecting the difference between the electric capacitances of the ferroelectric film when the potential difference of the second electrode corresponding to the difference between the electric capacitances of the ferroelectric film is in excess of a detection limit voltage and the electric capacitance of the second electrode is set to satisfy the expression as recited in claims 1 and 16.

The prior art does not teach or suggest the above elements as recited in independent claims 1 and 16. Therefore, the application is in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Huan Hoang whose telephone number is (571) 272-1779. The examiner can normally be reached on Mon-Fri 8:30AM-5:00PM.
